World Forum for Hospital Sterile Supply

SUSID
SERBIAN ASSOCIATION OF STERILIZATION AND DISINFECTION

INVITATION TO FRIENDS OF THE ASSOCIATION

-New trends in sterilization and disinfection-

First notice

Belgrade,13.09.2012.-23.09.2012.

Dear colleagues and friends

World Forum for Hospital Sterile Supply(WFHSS),in correspondence with the world norms and standards(ISO EN)has made an initiative as well as a program for staff education for sterilization.The program is the same for eachone of the almost 60 contries,members to the WFHSS and its education has been performed for many years.

Republic of Serbian,Croatia and Macedinia are now included in this educational program,starting from February 2011,as a result of the membership of their associations in the WFHSS.

Supported by the WFHSS and the Belgrade Military hospital and in collaboration with the Croatian Association for Hospital Sterile Supplay,the Disinfection and Sterilization Association of Macedonia and the Slovenian nurses section for sterile supplay,*the Serbian Association of Sterilization and Disinfection is going to host as well as organize the first level education for hospital sterile supplay of the fifth group.*The education is intended for sterile supplay staff,operational room nurses, polyclinics and private practice,dental nurses and pharmaceutical technicians where the preparation for and the sterile supplay is made.This education has got an international status and can be followed by everyone who does not see the language as a barrier for understanding.

School will be held 13.09 to 23.09.2012 at the Military Medical Academy in Belgrade.

Upon completion of the curriculum that provides schools, on Saturday 22 September will be held popular lecture of the friend of the association, which comprise a unique opportunity to represent domestic and foreign companies on the territory of Serbia. On them will be presented not only new trends and developments in the sterilization and disinfection, but also the companies and their products, without which the proper operation can not imagine. Also, participants will be able to obtain further information regarding the materials and means used in practice.

Serbian association of sterilization and disinfection and me personally as president of the same, will be happy to honor you and your host company in Serbia, and graduates students of the school provide jet another day of excellent lectures.

Sincerely,

Dejan Petrović ,President of Serbian Association of Sterilization and Disinfection
