

5th Pan-American Conference on Sterilization 6th International Symposium on Sterilization and Control of Hospital Infection - SOBECC

24th to 27th July 2008

“Palácio das Convenções do Anhembi - São Paulo - Brazil”

Take part in this historical scientific update
meeting in São Paulo

PATIENT SAFETY IN THE 21st CENTURY AND
PERSPECTIVES FOR THE MATERIAL AND STERILIZATION
CENTER (CME)

Organization and Accomplishment

SOBECC NACIONAL
SOCIEDADE BRASILEIRA
DE ENFERMEIROS
DE CENTRO CIRÚRGICO,
RECUPERAÇÃO ANESTÉSICA
E CENTRO DE MATERIAL
E ESTERILIZAÇÃO

Dear Reader,

We are in one of the most important moments to the Nursing Staff of the Surgery Block and, primarily, to the Material and Sterilization Center in Brazil. The essential reason for such highlight is the upcoming **5th Pan-American Conference on Sterilization and the 6th International Symposium on Hospital Infection Control**, a fact that contributes a lot for writing another page of the rich history of SOBECC.

The task is undoubtedly hard, but we are proud of it, and it encourages us to improve even further the quality of our events and offer novelties to make it possible for the participant to fully enjoy the period of learning and knowledge exchange. And it could not be different in this important occasion! In addition to many awards, for the first time an “ideal” Material and Sterilization Center will be available in the event, a space where it will be possible to get in contact with the technological advances of this area, the new techniques used and the new products.

**Do not waste this unique opportunity.
Take part!**

We would also like to express our sincere acknowledgments to all of those who have contributed, directly or indirectly, to the accomplishment of this event. Moments like these cause us – in addition to recalling facts and people and reviving achievements – to project directions of the profession, thereby reinforcing our whole potential.

We wish you all an excellent event and welcome the participants to the city of São Paulo.

Organization and Accomplishment

MESSAGE FROM THE CHAIR

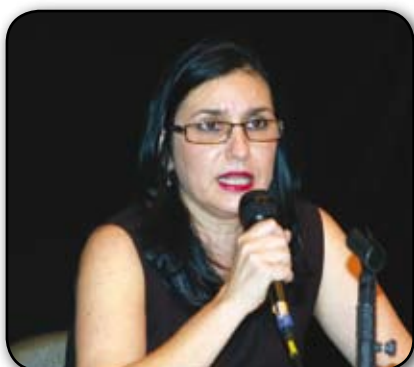

For ten years, the Brazilian Society of Nurses of Surgical Center, Anesthesia Recovery and Material and Sterilization Center (SOBECC) has been promoting the International Symposium on Sterilization and Control of Hospital Infection. This is a truly Brazilian event, which involves experts from the sterilization field and participants from many States of Brazil, in addition to national and international guests.

Additionally, this year the Country was chosen to be the seat of the Fifth Edition of the Pan-American Conference on Sterilization, another remarkable opportunity for integration between professionals and partners of the entire Latin America. And SOBECC was given the honor of planning this major international event.

The **5th Pan-American Conference on Sterilization** and the **6th International Symposium on Sterilization and Control of Hospital Infection** are a unique occasion for the update of health professionals involved in patient care, and in the prevention and control of infections. This is an invitation to the debate, to reflection, to steep into and search for responses in face of the challenges we face on the daily practice and research. For nurses and Nursing staffs that work in the sterilization and infection control areas, the improvement and update should be permanent. This is only this way whereby the professional keeps himself prepared to develop actions that stand out for the quality of care. And it is in this sense that SOBECC is performing the activities necessary for structuring and organizing both events.

In addition, São Paulo – the largest Brazilian city in the Southern hemisphere – is the perfect scenario for conciliating work and leisure. Influenced, both nationally and internationally, either from the social, cultural, economic or political standpoint, São Paulo has currently an estimated population of 11 million inhabitants. The planet's 14th most globalized city offers a number of shopping malls, cinemas, parks, theaters and restaurants of excellent quality.

Thus, enjoy your stay in São Paulo and be very welcome to the 5th Pan-American Conference on Sterilization and the 6th International Symposium on Sterilization and Control of Hospital Infection!

Jeane Bronzatti
Jeane Aparecida Gonzalez
Bronzatti
Chair of SOBECC

IMPORTANT DATES

20th June

Beginning of online registrations for pre-Conference programs

21st June

Deadline for payment of registrations and annuity (in installments)

24th July

12:00 p.m. – 02:00 p.m.

Delivery of material to enrolled persons and assistance for new registrations

02:00 p.m.

Beginning of the pre-Conference program

IMPORTANT

To attend the pre-Conference program lectures, those who are interested must previously register on the Internet. Please follow-up the beginning date of registrations on the website www.sobecc.org.br
Lectures are free for Conference participants.

06:00 p.m.

Opening ceremony of the event.

08:30 p.m.

Welcome cocktail and opening of the Technological Exhibition.

26th July

09:30 p.m.

Get Together Dinner

Venue: Palácio das Convenções do Anhembi
Hall Viveiros - São Paulo - Brasil

Note down in your agenda:
dinner invitations will be sold at the event office, on **July 24**, from 12 p.m. and, if there are still places available, on the day also, July 25, from 8 a.m. to 2 p.m.
Ensure your place!

LEARN ABOUT SOME OF THE LECTURERS THAT WILL BE PRESENT AT THE EVENT

Eng. Klaus Roth - Germany
Founder of SMP GmbH, Medical Products Service. The company offers the knowledge acquired with PMP research projects for the medical and hospital equipment industry.

Specialist Nurse Janete Akamine - Brazil
Coordinator of the Surgical Block of Hospital Santa Catarina and member of the Audit Committee of the National SOBECC, 2007-2009 management.

Nurse Madeleine Patenaude - Canada
Consultant of Advanced Sterilization Products, Johnson & Johnson Medical Products division.

Master Eng. León Darío Jiménez Posada - Colombia
National Business Manager and Partner of EMCO S.A. Professor at the Medical School of Pontificia Bolivariana for Anesthesia Residents, chair of the Antioquia Engineering School (AIA) - Biomedical Engineering area – and founding member of the Group of Professionals of the Sterilization Center (GPCE) Mechanic-Medellin.

Master Nurse Maria de Lourdes Ravello - Brazil
Hospital Infection Control Service (SCCIH) of Hospital Moinho de Ventos, in Porto Alegre (RS).

Master Nurse and Dr. Vania Regina Goveia
Member of the research group on infection control related to assistance procedures, she develops consulting activities in hospital infection control and training to the nursing staff.

Nurse Kathleen B. Stoessel – United States
Senior Manager for Continued Education of Kimberly-Clark Health Care and Education consultant.

Dr. Noeli Martins - Brazil
Occupational Physician, tax auditor of the Ministry of Labor and Employment (MTE – Paraná).
She coordinated the Tripartite Working Group that worded the basic draft of Regulatory Directive 32 (NR 32) and coordinates the National Permanent Tripartite Committee – CTPN of NR 32.

Specialist Nurse Lígia Garrido - Brazil
In charge of the Material and Sterilization Center of Hospital Samaritano (São Paulo).

ABSTRACT OF SOME THEMES THAT WILL BE PRESENTED DURING THE EVENT

Specialist Nurse Ana Maria Ferreira Miranda - Brazil

Administrative Support from the Management of Hospital Santa Isabel/ISCMSP (SP), chair of the Study Group for Improvement of Orthopedic Implant Processing Practices (GEAPIO) in CME.

Surgical Implant: Shared Responsibility

The lecture will primarily address aspects of the current legislation (Federal Medical Board – CFM) on surgical implants and the applicability thereof, in addition to addressing questions on the nurse's work in the CME and the Hospital Infection Control Center (CCIH) and his responsibility for materials used in health facilities, with focus on the institution's joint liability for the use of non-qualified materials.

Eng. Marcelo Luiz Pereira - Brazil

Doctoral Student and Master in Engineering, professor of the Multidisciplinary Course of Air Quality and Pollution in Internal Environments, given by the University of São Paulo (USP) and professor of the Federal Center of Technological Education – CEFET – Santa Catarina.

Suspension of Particles in Aseptic Environments: Preparation Area, Sterile Area and Storage

The purpose of this lecture is to address the importance of the air conditioning system in the control of suspended particles in areas of preparation, sterilization and storage of materials in the CME. Therefore, factors such as sources of suspended particles in air, materials, people, scaling, breathing/feeding, smoking, jewelry, clothes, accesses, fluids and equipment will be addressed, in addition to the impact of the conditioning system.

Specialist Nurse and Dentist Denise Demarzo - Brazil

Training Coordinator of the *Advanced Sterilization Products Division (ASP) of Johnson & Johnson Medical Brazil*.

Hydrogen Peroxide Plasma

The main purpose of the presentation will be to clarify doubts related to the reprocessing of dental-medical-hospital products and the consequent implication on the patient care. The lecture will address the sterilization process, its parameters and the monitoring, in addition to evolution – through the new working platform – of hydrogen peroxide plasma sterilizers.

Master Nurse Dulce Regina Batista Carmo

Director of the Specialized Hygiene Service of the University Hospital of the University of São Paulo.

Hospital Waste Management in CME

This is a report of the experience of the Waste Management Committee of the University Hospital of the University of São Paulo in preparing and implementing the Health Service Waste Management Plan based on the rules of the National Environment Council (CONAMA) Resolution 358/2005, and Resolution of the National Agency for Health Surveillance (ANVISA) – RDC 306/2004. The purpose of the plan is to establish and implement routines for wastes, in the search for ongoing improvement of professionals in the prevention and reduction of health and environment risks.

Hélvia Korting, Pharmaceutical Biochemist - Brazil

Professor of the Specialization Course in Hospital Infection Control of São Camilo Educational Center – in Porto Alegre, Rio Grande do Sul, chair of the Rio Grande do Sul Association of Professionals in Hospital Infection Control (AGIH), 2005/2007 and 2007/2009 managements – Brazil)

Peracetic Acid as a High-Level Disinfection Alternative

In addition to comprising aspects of the current legislation, the lecture should address the classification, synthesis, chemical characteristics of disinfectants, and the product's action mechanism. The presentation will further address the advantages and disadvantages of the peracetic acid, performance of chemical and microbiological control, and warranty of the process efficiency, among other themes.

Tim Galekop - Belgium

Global Business Development Director of the Medical Fabrics Division of Ahlstrom Malmedy S.A., responsible for the Technical Support and Regulatory Affairs areas. Member of the European Disposables & Nonwovens Association (EDANA) and the International Nonwovens & Disposables Association (INDA). Over 30 years of experience in the medical area.

Don't become the Patient!

This presentation places the spectrum of the increasing risk of infection in the health area, originating from new and mutating microorganisms. It focus on the importance of decontamination and application of the proper aseptic technique during the surgical procedure and points out its role in the decrease of hospital infections, as well as the awareness of the Surgical Center people on the real risk of contamination to which they are submitted during the treatment of infected patients.

Eng. Martin Pfeifer - Germany

Administrative Director of PEREG GmbH, member of the DIN Working Group, that works in the regularization of washers and disinfection machines and in the monitoring of studies on the efficacy of cleaning processes of disinfection washers.

Resources and Techniques used to assess the Cleaning Process Efficiency

It is known that the cleaning process of surgical instruments is as important as disinfection and sterilization. The same care and effort should be applied in cleaning when it is about the practical application, validation and routine monitoring. At the same time in which cleaning is one of the most important tasks, it is one of the less standardized processes, what makes it difficult to guarantee quality. Different cleaning processes are used to solve problems of blood-contaminated instruments. Even for the automated cleaning in thermal disinfection machines, a large variety of cleaning parameters are used in practice, and differences are observed also from one washer to another. Thus, what is necessary for a safe and sensible application in the routine monitoring and validation of cleaning processes?

Roberto Pereira - Brazil

Engineer with a Graduate Degree in Management and Marketing from the University of Minnesota – USA, chair of the Study Groups of packaging and papers for medical use of the Brazilian ABNT Committees 26 and 29, he participated in the preparation of the Technical Standard for Surgical Grade Packaging of the Brazilian Association of Technical Standards (ABNT)).

Sterilization Packaging – What you need to know on the National (ABNT) and International Technical Standards – CEN/ISO Harmonization.

The lecture will address major aspects related to Surgical Grade paper for packaging, such as the national, international standards, main differences, changes and characteristics that should be observed to assess the product quality according to the established standards.

24th JULY – PRE-CONFERENCE PROGRAM

12:00 p.m. – 02:00 p.m.	Delivery of Material and Assistance for New Registrations
ROOM 9 02:00 p.m. – 03:30 p.m.	<p>Hospital Infection Outbreaks: How to Investigate</p> <ul style="list-style-type: none">• The work of ANVISA in the Fight against Hospital Infection Outbreaks• The responsibility of the CME and SCIH Nurse before the Society – With respect to Hospital Infection Outbreaks <p>Lecturers:</p> <ul style="list-style-type: none">• Dr. Antonio Tadeu Fernandes (Infectologist doctor and coordinator of the Hospital Infection Control of SEPACO'S Hospital)• Nurse, Dr. and Lawyer Isabel Cristina de Oliveira Guerra (State of São Paulo Department)
ROOM 1 02:00 p.m. – 03:00 p.m.	<p>Hospital Waste Management in CME</p> <p>Lecturer: Master Nurse Dulce Regina Batista Carmo (Director of the Specialized Hygiene Service of the University Hospital of USP)</p>
ROOM 2 03:00 p.m. – 04:00 p.m.	<p>Myths and truths on the sterilization of optical materials</p> <p>Lecturer: Engineer Paulo Matera (Company: H.Strattner & Cia Ltda)</p>
ROOM 4 02:00 p.m. – 03:00 p.m.	<p>Safety in the sterilization process of engines</p> <p>Lecturer: Master Nurse and Dr. Vânia Gouveia (Member of the research group of control & infection related to assistance procedures, she develops consulting activities in hospital infection control and training to the nursing staff).</p>
04:00 p.m. – 04:30 p.m.	Break
ROOM 9 04:30 p.m. – 05:30 p.m.	<p>Occupational Safety: A Worldwide Concern</p> <ul style="list-style-type: none">• NR32: Worker Safety in CME <p>Lecturer: Dr. Noeli Martins (Occupational Physician, tax auditor of the Ministry of Labor and Employment (MTE – Paraná). She coordinated the Tripartite Working Group that worded the basic draft of NR 32 and coordinates the National Permanent Tripartite Committee – CTPN of NR 32.</p>

CULTURAL INTERACTION

With attendance of representatives of many countries, the event will also be a moment of relax provided by the exchange of souvenirs with regional motifs, such as pins and shirts. Please contribute to this large gathering bringing a small gift from your home city or State. Be part of the party!

ROOM 1

04:30 p.m. – 05:30 p.m.

Traceability System in the CME: Is computerization the Solution?

Lecturers:

- **Specialist Nurse Janete Akamine** (Coordinator of the Surgical Block of Hospital Santa Catarina and member of the Audit Committee of the National SOBECC, 2007-2009 management)
- **Specialist Nurse Gessilene de Sousa Barbosa** (Material and Sterilization Center of Hospital Israelita Albert Einstein)

ROOM 2

04:30 p.m. – 05:30 p.m.

Surgical Implant: Shared Responsibility

Lecturer: **Nurse Ana Maria Ferreira Miranda** (Administrative Support from the Management of Hospital Santa Isabel/ISCMSP)

ROOM 4

04:30 p.m. – 05:30 p.m.

1st Workshop on Manual X Automated Cleaning

Lecturers:

- **Eng. Dr. Thomas W. Fengler** (Co-worker in the development of surgical instruments in Karl STORZ Endoscópios Tuttlingen, Miele PROFESSIONAL Guetersloh, MATACHANA Aesculap Tuttlingen, Olympus Europe and Japan, Chair of CMP GmbH Cleanical processos médicos CLEANICAL GmbH Berlin – Germany).

LARGE AUDITORIUM

06:30 p.m. – 08:00 p.m.

Cultural Opening Program / Opening Ceremony

08:30 p.m.

Welcome cocktail and opening of the Technological Exhibition.

25th JULY 2008 SCIENTIFIC PROGRAM – LARGE AUDITORIUM

7:30 a.m. – 8:30 a.m.

Delivery of Material and Assistance for New Registrations

8:30 a.m. – 10:30 a.m.

World Scenario for Materials and Sterilization Centers

Lecturers:

- **Nurse Póla Brener** (Coordinator of the National Program for Prevention of Infections and Hospital Quality of the Chilean Ministry of Health, associate teacher of the University of ValParaiso and University Mayor-Chile, chair of the Chilean Society of Epidemiology and Control of Infections, consultant of the Pan-American Health Society and member of the Board of Directors of the International Federation of Infection Control – IFIC – Chile).
- **Jacqueline Daley, Microbiologist** (Director of the Program for Infection Prevention and Control of the SINAI Hospital in Baltimore, United States, member of the APIC management and member of Working Groups and preparation of AAMI (Association for the Advancement of Medical Instrumentation) directives – United States).
- **Wim Renders, Pharmacist** (Chair of the World Forum of Sterilization. Working since 1986 as chief of the Sterilization Center Department, founding member and chair of the European Forum for the Hospital Sterile Supply (1999) now called World Forum for Hospital Sterile Supply).
- **Specialist Nurse Lígia Garrido Calicchio** (In charge of the CME of Hospital Samaritano (SP) and vice chair of the National SOBECC, 2007-2009 management – Brazil)

10:30 a.m. – 11:30 a.m.

Break | Visit to the Technological Exhibition

11:30 a.m. – 12:20 p.m.

Ideal Project for the Material and Sterilization Center – From Legislation to Performance

Lecturer: **Engineer Luciane Infante** (Clinical Engineer of Hospital Samaritano in São Paulo – Brazil)

12:20 p.m. – 01:20 p.m.

Suspension of Particles in CME Environments: Preparation, Sterilization and Storage Area

Lecturer: **Marcelo Luiz Pereira, Doctoral student and Master in Engineering** (Professor of the Multidisciplinary Course of Air Quality and Pollution in Internal Environments, given by the University of São Paulo (USP) and professor of the Federal Center of Technological Education – CEFET – Santa Catarina).

01:20 p.m. – 02:30 p.m.

Lunch | Presentation of Satellite Symposiums (3M do BRASIL, COVIDIEN PRODUTOS VALLEYLAB and KIMBERLEY-CLARK).

02:30 p.m. – 03:20 p.m.

Material Aspects in Selecting a Water Quality Treatment System in the CME

Lecturer: **Dr. Ricardo Y. Tsukamoto, Biologist** (Technical Director of Puriaqua Bioconsult Group – Brazil)

ROOM 4

02:30 p.m. – 03:30 p.m.

2nd Workshop on Manual X Automated Cleaning

Lecturers: **Eng. Dr. Thomas W. Fengler** (Co-worker in the development of surgical instruments in Karl STORZ Endoscópios Tuttlingen, Miele PROFISSIONAL Guetersloh, MATACHANA Aesculap Tuttlingen, Olympus Europe and Japan, Chair of CMP GmbH Cleanical processos médicos CLEANICAL GmbH Berlin – Germany).

03:20 p.m. – 04:00 p.m.

Influence of the Processing of Materials on the Infection Control

Lecturer: **Master Nurse Maria de Lourdes Ravello** (SCCIH of Hospital Moinho de Ventos, in Porto Alegre, Rio Grande do Sul – Brazil)

04:00 p.m. – 05:00 p.m.

Strategies for Reducing Infection in a Surgical Site

Lecturer: **Nurse Kathleen B. Stoessel** (Senior Manager for Continued Education of Kimberly-Clark Health Care, and Education consultant – United States)

05:00 p.m. – 06:00 p.m.

Don't become the Patient!

Lecturer: **Tim Galekop** (Global Business Development Director of the Medical Fabrics Division of Ahlstrom Malmedy S.A., responsible for the Technical Support and Regulatory Affairs areas. Member of the European Disposables & Nonwovens Association (EDANA) and the International Nonwovens & Disposables Association (INDA). Over 30 years of experience in the medical area – Belgium)

06:15 p.m.

Special Meeting of the National SOBECC

07:00 p.m.

Closing of the activities

ROOM 9

02:00 p.m. – 05:00 p.m.

1st Latin American Teaching Forum

How to educate professionals to practice in the Surgical Center, Post Anesthetic Recovery and CME areas.

Lecturers:

- **Prof. Dr. Maria Belén Salazer Posso** (Coordinator and professor of the Nursing course of Faculdade ABC and pedagogic advisor of the Nursing course of Universidade do Vale do Paraíba)
- **Master Nurse Jeane Aparecida Gonzalez Bronzatti** (Director of the Surgical Block of Hospital Alemão Oswaldo Cruz chair of the National SOBECC, 2007-2009 management)
- **Nurse Prof. Dr. and Lawyer Genival Fernandes de Freitas** (Department of Professional Guidance of the Nursing School of USP)
- **Nurse Maria Alice Paes Lira Lisboa** (Continued Education of Hospital e Maternidade São Luiz - SP, member of the Brazilian Society for Nurses of Continued Education – SOBRECEM)

KEEP AN EYE ON THE AWARDS

As if the incredible opportunity for scientific update and exchange of experience were not enough, lotteries will be held at the end of the event, which promise you great surprises! Prepare yourself and good luck!

26th JULY 2008 SCIENTIFIC PROGRAM – LARGE AUDITORIUM

8:00 a.m. – 9:00 a.m.

Disinfection/Sterilization Process and its Transcendences
Lecturer: **Wim Renders, Pharmacist** (Chair of the World Forum of Sterilization – Belgium)

9:00 a.m. – 10:40 a.m.

- Configuration of surgical instruments: Influence and validation of the cleaning process according to ISO 17,664 standard
- Clinical Trial: reprocessing of surgical instrument of complex configuration

Lecturers:

- **Eng. Klaus Roth** (Founder of SMP GmbH, Medical Products Service. The company offers the knowledge acquired with PMP research projects for the medical and hospital equipment industry – Germany)
- **Eng. Dr. Thomas Fengler** (Co-worker in the development of surgical instruments in Karl STORZ Endoscópios Tuttlingen, Miele PROFISSIONAL Guetersloh, MATACHANA Aesculap Tuttlingen, Olympus Europe and Japan, Chair of CMP GmbH Cleanical processos médicos CLEANICAL GmbH Berlin – Germany).

10:40 a.m. – 11:30 a.m.

Break | Visit to the Technological Exhibition

11:30 a.m. – 12:20 p.m.

Resources and Techniques used to assess the cleaning process efficiency
Lecturer: **Eng. Martin Pfeifer** (Administrative Director of PEREG GmbH, member of the DIN Working Group, which acts in the regularization of washers and disinfection machines and in the monitoring of efficacy studies of cleaning processes of disinfection washers – Germany)

ROOM 1

11:45 a.m. – 12:45 p.m.

Lecture: **Water treated by reverse osmosis method: Myths x Reality and the Planet Sustainability**

Lecturers:

- **Alexandre Henrique Hermeni**, Master and PhD in Engineering (Professor of the graduate program in Clinical Engineering at Unicamp, I.E.P. Albert Einstein, Hospital Equipment advisor – State of São Paulo Department of Health and chair of the Brazilian Association of Clinical Engineering – Brazil)
- **Nurse Dr. Silma Maria Cunha Pinheiro** (Assistant professor of Pontifícia Universidade Católica de Minas Gerais – Brazil)

12:20 p.m. – 01:00 p.m.

Peracetic Acid: Alternative for high-level disinfection
Lecturer: **Hélvia Korting, Pharmaceutical Biochemist** (Professor of the Specialization Course in Hospital Infection Control of São Camilo Educational Center (Porto Alegre, Rio Grande do Sul) and chair of the Rio Grande do Sul Association of Professionals in Hospital Infection Control (AGIH), 2005/2007 and 2007/2009 managements)

ROOM 4

12:20 p.m. – 01:20 p.m.

3rd Workshop on Manual X Automated Cleaning

Lecturers: **Eng. Dr. Thomas Fengler** (Co-worker in the development of surgical instruments in Karl STORZ Endoscópios Tuttlingen, Miele PROFISSIONAL Guetersloh, MATACHANA Aesculap Tuttlingen, Olympus Europe and Japan, Chair of CMP GmbH Cleanical processos médicos CLEANICAL GmbH Berlin – Germany).

01:00 p.m. – 02:30 p.m.

Lunch | Presentation of Satellite Symposiums (JOHNSON & JOHNSON, LDM and 3M do BRASIL)

02:30 p.m. – 04:40 p.m.

Sterilization Methods and Monitoring Indicators of Low Temperature Processes

- Formaldehyde
- Peracetic Acid
- Ethylene Oxide
- Hydrogen Peroxide Plasma

Lecturers:

• **Jacqueline Daley, Microbiologist** (Director of the Program for Infection Prevention and Control of the SINAI Hospital in Baltimore, United States, member of the APIC management and member of Working Groups and preparation of AAMI directives – United States).

• **Master Mario Sant** (General Administration Course in Sterilization – England, Auditor in the Sterilization Area of the Public Sector in the city of Malta, member of the Medical Equipment Commission of CSSD Heathlands Hospital in Birmingham Bristol Royal).

• **Nurse John A. Kurowski**, (Director of global clinical teaching of services to STERIS Corp, active member of the Association of Perioperative Nurses (AORN), member of the Association of Professionals for the Control of Hospital Infections, member of the Gastroenterology Society of Nurses and Affiliates (SGNA) and of the Association for the Advance of Medical Instrumentation (AAMI).

• **Philip M. Schneider** (Senior Researcher in Sterilization Processes - 3M Health Care – United States)

• **Specialist Nurse and Dentist Denise Demarzo** (Training Coordinator of the Advanced Sterilization Products Division (ASP) of Johnson & Johnson Medical Brazil).

04:40 p.m. – 05:40 p.m.

Practical Demonstration of the Running of an Autoclave

Lecturer: **Dr. Eng. León Darío Jiménez Posada** (National Business Manager and Partner of EMCO S.A. Professor of the Medical School of Pontificia Bolivariana for the Residents of Anesthesia, chair of the Antioquia Engineering School (AIA) – Biomedical Engineering Area – and founding member of the Group of Professionals of the Sterilization Center (GPCE).

05:40 p.m.

Closing of the activities

09:30 p.m.

Get Together Dinner (Palácio das Convenções do Anhembi - Hall Viveiros)

11:00 a.m. – 11:45 a.m.	Break Visit to the Technological Exhibition
11:45 a.m. – 12:45 p.m.	Program of Quality Indicators in the CME Lecturer: Fabiola Casas (Mexico)
12:45 p.m. – 02:00 p.m.	Lunch Satellite Symposium Presentation: STERIS
02:00 p.m. – 03:00 p.m.	The responsibility of the CME Nurse and his Interface with External and Internal Clients. Lecturer: Nurse Madeleine Patenaude (Consultant of Advanced Sterilization Products, Johnson & Johnson division – Canada)
03:00 p.m. – 03:45 p.m.	Developing Competencies of Professionals for working in the CME Lecturer: Nurse Prof. Dr. Eliane Silva Graziano (Coordinator of the specialization course in Surgical Center – Faculdade São Camilo/ /SP – Brazil)
03:45 p.m. – 04:15 p.m.	Ceremony for selecting the Country that will be the seat of the next Conference
04:15 p.m. – 04:30 p.m.	Event Closing Ceremony
04:30 p.m.	Lotteries

25th JULY, 2008 SATELLITE SYMPOSIUM

AUDITORIUM 1 (180 SEATS)

Time: 01:30 p.m. – 02:30 p.m.

Company: Covidien (Valleylab Products)

Subject: **The risk in the Surgical Center**

Lecturer: José Alberto Burla (Expert in Valleylab Products)

Registrations: www.sobecc.org.br

26th JULY, 2008 SATELLITE SYMPOSIUMS

AUDITORIUM 2 (160 SEATS)

Time: 01:20 p.m.– 02:20 p.m.

Company: LABNEWS/LDM

Subject: **The Role of Enzymes in the Enzymatic Detergent Formulation. Quantity or Quality?**

Lecturer: Nurse Kelly Lidia A. Rodrigues (Technical Consultant of Labnews/LDM)

Registrations: www.sobecc.org.br

AUDITORIUM 1 (180 SEATS)

Time: 01:20 p.m.– 02:20p.m.

Company: JOHNSON & JOHNSON

Subject: **Health – Clean Technology**

Lecturer: Leny Spessotto de Camargo Santiago

Registrations: www.sobecc.org.br

LARGE AUDITORIUM

Time: 01:15 p.m.– 02:15p.m.

Company: IGMED

Subject: **Biofilm: Implications of its formation and development in the daily routine**

Lecturer: Josaphat Souza Nascimento, Student of the Master's Degree in Nursing (In charge of the Material and Sterilization Center of Hospital do Servidor Público Estadual de São Paulo –SP)

Registrations: www.sobecc.org.br

AUDITORIUM 2 (160 SEATS)

Time: 03:00 p.m.– 04:00 p.m.

Company: C4- CONTROL DE CONTAMINACION - COLOMBIA

Subject: **New Technologies in washing and validation**

Lecturer: Iven Kruse

Registrations: www.sobecc.org.br

27th July 2008 SATELLITE SYMPOSIUMS

LARGE AUDITORIUM

Company: STERIS

Subject: **System 1 Experiences in Brazil: Eliminating Glutaraldehyde from the Surgical Center**

Lecturers: Representatives of Hospital Sírio Libanês in São Paulo (SP), Hospital Pitangueiras - Grupo Sobam de Jundiaí (SP) and Hospital São Lucas - Brasília – Federal District)

Registrations: www.sobecc.org.br

CHECK THE INSTRUCTIONS CAREFULLY AND TAKE PART!

The system cannot accept the same registration twice. Upon filling out your registration form, please be sure to choose the most convenient date, because, after the slip is printed, the participant will have three business days to make payment. In addition, it is important to point out that, in case of cancellation, the participant may not do the registration again. Thus, fill out the form correctly, paying attention to all details, choose the payment condition and follow the instructions for completing the operation.

1) The Executive Secretary of SOBECC will not accept handwritten and/or incomplete registration forms.

2) To register as member, the 2008 annuity must have been paid.

3) The vacancy will be considered filled when the two installments related to the annuity and registration are duly paid.

4) The registration amount will not be refunded in case of cancellation.

5) Nursing students should submit the enrollment voucher – related to 2008 – at the registration, send it by fax it to (11) 3205-1407 or by e-mail to sobecc@sobecc.org.br.

Statements provided by universities will not be accepted, only the enrollment voucher is valid for registration. It is important that the student's identification is clearly mentioned in the document.
