## Legal Aspects of Medical Product Reprocessing

---

Dr. Leopold-Michael Marzi  
Head of the Legal Department  
Vienna General Hospital

# The “juridification” of the health sector

—

## A ubiquitous phenomenon

Patients' rights – what are the implications with regard to compensatory claims?

The patient as a consumer

–

A challenge for all service  
providers in the health  
sector

# Hygiene standards and their legal implications

What are the benchmarks  
for jurists when assessing  
whether hygiene standards  
have been met?

# Globalisation of standards and national legal systems

Reprocessing of  
medical products  
against the background of  
legal, economic and  
medical-technical  
challenges

# The impossibility of 100% certainty and its legal implications?

# Tasks of the national legislature and health facilities
